CARRER SUMMARY

Dynamic and adaptable professional with a solid foundation in mechanical engineering, now leveraging technical acumen and a passion for coding to excel in web development. With a proven track record of successfully transitioning from a traditional engineering role into the fast-paced world of software development, I bring a unique perspective and diverse skill set to projects. Driven by a commitment to continuous learning and innovation, I thrive in collaborative environments where I can apply both my analytical problem-solving skills and creative flair.

Key Skill Set

- Proficient in web development technologies including HTML, CSS, JavaScript, and various frameworks such as React.js and Node.js.
 - Strong understanding of software engineering principles, including data structures, algorithms, and version control systems like Git.
 - Excellent analytical and problem-solving abilities, honed through complex engineering projects and applied to software development challenges.
 - Effective communicator with a proven ability to collaborate with cross-functional teams and stakeholders to deliver high-quality solutions on time and within budget.
 - Leadership/ Teamwork
-
